STUDENT SUPPORT SERVICES

Spring 2009 Mid-Semester Progress Report

Student Support Services (SSS) assists first generation, low income, and/or students with disabilities at Florida Gulf Coast University. The SSS project serves 160 students at FGCU providing a range of academic and co-curricular supplemental services, and the opportunity to participate in a highly interactive environment with SSS staff, and university faculty, staff, and students.

We are asking individual instructors to assist the student by providing a mid semester progress report in the grid below. This, in turn, will give SSS an opportunity to review and discuss with the student matters affecting their academic progress. If you need additional information, or have questions, please contact Susan Genson at 590-7836 or via email at sgenson@fgcu.edu. Your cooperation in supporting this student is appreciated.
